Guidance notes

Background information

When making entries for Cambridge Primary Checkpoint or Cambridge Lower Secondary Checkpoint on Direct, you need to enter a teaching group code for each syllabus entry. The code should show the classes in which your candidates are being taught. For example, if your candidates for Cambridge Primary Checkpoint English (0058) are taught in two separate classes, you should enter 'E1' as the teaching group code for all candidates in the first class and 'E2' for all candidates in the second class.

Teaching group codes appear on your diagnostic feedback so you can compare the performance of different teaching groups.

If you want a 'teaching group name' to appear on your diagnostic feedback alongside the teaching group code, you need to complete this form. A teaching group name can be anything which will help you to identify the class more easily – for example, you may wish to use the name of the teacher who takes the class, or your own internal class name. Teaching group names should be no longer than 40 characters. If you do not provide a teaching group name, the teaching group code will appear twice on your diagnostic feedback.

Completing the form

- Write your chosen teaching group name next to all the codes you have entered candidates against, as you would like it to appear on the diagnostic feedback. Any unused group codes can be left blank.
- Return the form to info@cambridgeinternational.org at the same time as you submit your entries for the series. Include your centre number and the form name and number (found at the top right-hand corner of the form) in the email subject line.
- If you are an Associate Centre and work with us through a Cambridge Associate, submit this form directly to your Cambridge Associate.
- Save a copy of the form for your own records.

Deadlines

The deadlines for submitting this form are:

- May series – 11 March
- October series – 16 September
